

# Inter-institutional student and staff exchange agreement 2020/2025

The institutions named below agree to cooperate for the exchange of students and/or staff according to the principles and conditions below. They commit to respect them in all aspects related to the organisation and management of the mobility, in particular the recognition of the credits awarded to students by the partner institution. The present bilateral agreement will be valid during the academic years 2020-2021 to 2024-2025 unless either side terminates the agreement in writing at the latest by October 1st for activities taking place during the following (n+1) academic year.

## B. Mobility numbers per academic year

### Basic principles

- The exchange covers at least three months and up to one academic year. During this period the student is required to attend a number of courses and seminars corresponding to the normal workload at the host institution.
- Prior to the departure to the host institution, a *Learning Agreement* is drawn up for each individual student. Upon the basis of the courses available in the host department, this agreement sets out the details of the study programme, including the credits to be achieved. It is signed by the student and the academic coordinator both in the home and host institution.
- Any changes to the *Learning Agreement* are agreed in writing as soon as they occur.
- The student is assessed by the host institution, who will deliver to the academic coordinator of the home institution a *Transcript of Records*, listing the credits and grades achieved.
- In accordance with the *Learning Agreement*, the home institution will give full academic recognition for the credits achieved in the host institution.
- Registration fees in the host institution are waived for the student taking part in the exchange programme, provided he/she is enrolled at the home institution. Students enrolling at the host institution towards a degree fall outside of the scope of the present agreement, and shall be subject to all regular registration fees.
- The selection of exchange students is carried out by the home institution on the basis of criteria established jointly by the academic coordinators of the present agreement.
- Apart from the registration fee at the host institution, all other costs will be borne by the student, including travelling expenses, living costs and health insurance.
- All exchange students must have adequate health insurance coverage. They may be required to produce a letter from their insurance company certifying this when registering at the host institution.
- Each individual student is responsible for obtaining his/her visa in time. The host institution will provide him/her with the appropriate documents.
